FEATURES & SCOPE

SCOPE IN

Action	Classic Portal	New Portal	Notes
1. Payments and Shopping Cart	Yes	Yes (Partially)	Features like Simultaneous payment handling and configuring CUSTREF clearance to support 2 nd payment / prepayment https://ontellus.atlassian.net/browse/OC-1147
2. Standard Payment Flow	Yes	Yes	In-Network without PFP
3. Prepayment	Yes	Yes (Partially)	https://ontellus.atlassian.net/browse/OC-5796 [OC-2875] ChartSwap > Reporting > Enhance Tracking of Checks & Multiple Payments - Ontellus - Jira
3.1. Platform Fee Prepayment (PFP) (Purchasing Model)	Yes	Yes (Partially)	
3.1.1. PFP 1st Flow	Yes	Yes	1 st prepayment and 2 nd final payment
3.1.2. PFP 2nd Flow	Yes	Yes (Partially)	1 st prepayment and 2 nd prepayment
3.2. Sharecare and CIOX	Yes	No	OC-2534
3.3. Records Retrieval Prepayment (RRP)	Yes	Yes	
3.3.1. RRP 1st Flow	Yes	Yes	1 st prepayment and 2 nd final payment
3.3.2. RRP 2nd Flow	Yes	Yes	1 st prepayment and 2 nd prepayment
4. Transaction Logging Approve Fee & Report	Yes	No	https://ontellus.atlassian.net/browse/OC-5855 - Impacted Areas: - Invoice - Approve Fee
5. Cheque Processing Fees	Yes	No	https://ontellus.atlassian.net/browse/OC-5175
6. Auto pay with Credit Card	Yes	No	https://ontellus.atlassian.net/browse/OC-5618
7. Second Chance Instant Download	Yes	No	
8. Invoice Regression	Yes	Yes (Partially)	
9. Charting	Yes	Yes (Partially)	
10. Medical Canvassing	Yes	Yes (Partially)	

IMPLEMENTATION APPROACH

1. For the features that exist in Classic Portal and New Portal we will do a GAP analysis vs New Portal to compare functionalities and address any bugs and GAPs

2. For features that don't exist in New Portal, our reference will be the mentioned user stories. We will conduct technical sessions with Developers and try to document the features. This will be followed by Business Demo sessions to address GAPs and confirm scope

OUT OF SCOPE

1. In case of Canceling a service option after payment, the refund is done outside of the system. Handling this scenario is out of scope.
2. Bundling Discounts
3. Correct storage of payment details for audit and reference – The current scope is to track audit trails for approve fee only. Other payment types will be out of scope
4. Fully Paid Items by Cheque – The current bug is that if the request is paid by cheque and there is a cart item in the shopping cart for the same request (probably in the pending state or any other state), we can end of having double payments. As a solution we should not allow payment by cheque if the request has any cart items
5. Approve Fee Cart Item Removal – The current bug is that we approve fee for the request there is a cart item in the shopping cart for the same request (probably in the pending state or any other state), we can end of having double payments. As a solution we should not allow approve fee if the request has any cart items
6. Calculate Fees Button is not working - This is a bug in the classic provider portal. The calculated fees button doesn't work for all requests
7. Support for payments beyond 2nd prepayment is not supported (This is confirmed as per the business process)

FUNCTIONAL LANDSCAPE

PROCESS FLOWS (GAP ANALYSIS – NEW VS CLASSIC PORTAL)

Process Map

The fee processing for requests is determined by three key factors:

1. The integration client form on the Provider Account
2. The Fee Process field on the Provider Account
3. The Fee Process opt-out setting on the Requestor Account

Fee Process	[N/A] or [In-Network]	Integration Client Form						
		Default	CIOX	Pharmacy	Sharecare	Retrieval	Retrieval Medicare	Updax
[N/A] or Standard	Standard	CIOX Prepayment	CIOX Prepayment	CIOX Prepayment	Sharecare	Record Retrieval Prepayment	Record Retrieval Prepayment	Standard Instant Download
Platform Fee Prepayment	PFP (Subject to Requestor Optout and choice of Mail Delivery)	[N/A]	[N/A]	[N/A]	[N/A]	[N/A]	[N/A]	[N/A]

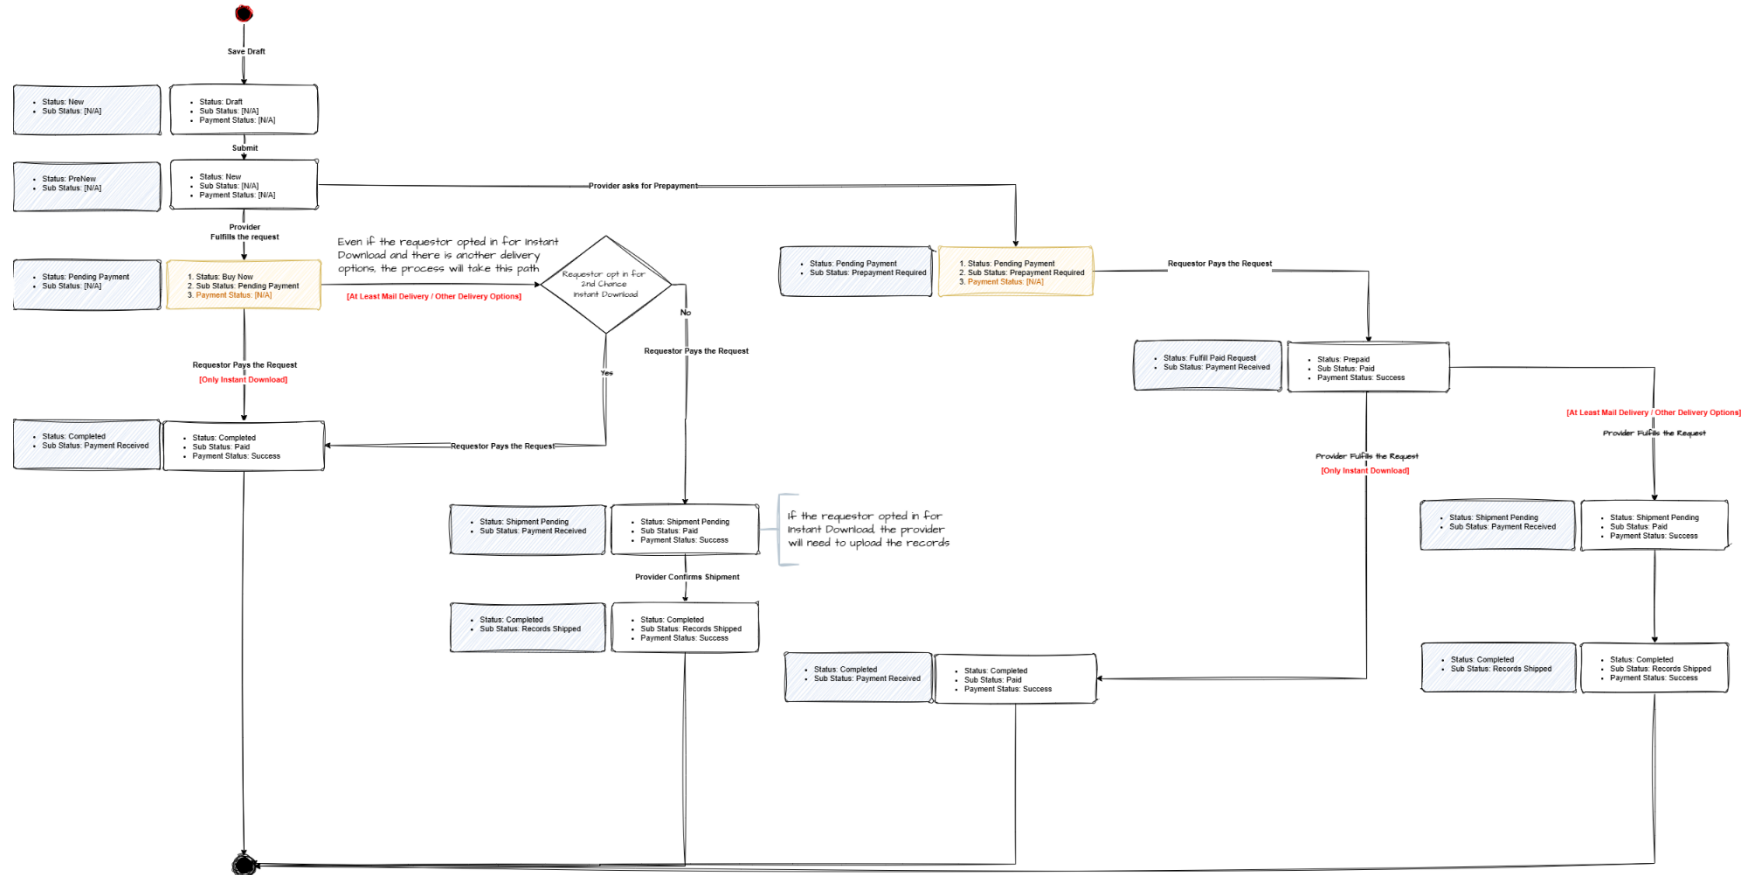

According to the above table we have the following Fee Processes:

1. Standard Payment Flows
 - 1.1. Process A: Standard Payment Flow (Instant Download). *This is a common process for In-Network and Updax*
 - 1.2. Process A2: Standard Payment Flow (Instant Download) with custodian fee prepayment
 - 1.3. Process B: Standard Payment Flow (Mail Delivery)
2. Updax Standard Payment Flow (Instant Download)
3. Platform Fee Prepayment (PFP) Flows
 - 3.1. Process A: Platform Fee Prepayment (PFP) Flow - Direct Fulfillment [Digital Delivery] 2nd Payment
 - 3.2. Process B: Platform Fee Prepayment (PFP) Flow - 2nd Prepayment
4. Record Retrieval (RR) Prepayment Flows
 - 4.1. Process A: Record Retrieval Fee - Direct Fulfillment without Additional Fees
 - 4.2. Process B: Record Retrieval Fee - Direct Fulfillment with Additional Fees (2nd Payment)

- 4.3. Process C: Record Retrieval Fee - Direct Fulfillment with Additional Fees (2nd Prepayment)
- 5. CIOX Prepayment Flows
 - 5.1. Process A: CIOX Prepayment Direct Fulfillment without Additional Fees
 - 5.2. Process B: CIOX Prepayment Direct Fulfillment with Additional Fees (2nd Payment)
- 6. Sharecare Payment / Prepayment Flow
 - 6.1. Process A: Authorization Payment Process Flow
 - 6.2. Process B: Subpoena Prepayment Process Flow

Standard Payment Flows

Standard Payment Process Summary

Any non-electronic delivery is a shipment option

FEES CALCULATIONS

Fees are categorized into two main groups (Provider Fees and ChartSwap Fees)

Total ChartSwap Fees = (Instant Download Fee + Digital/Electronic Delivery Fee + Sales Tax + Request Fees) - (Bundling Discount + Invoice Discount)

- **Instant Download Fee** = Minimum of (Requestor ED, Provider SOS (where service option includes 'Instant Download Fee'), settings)
- **Digital/Electronic Delivery Fee** = Minimum of (Requestor ED, Provider SOS (where service option includes 'Electronic Delivery'), settings)
- **Sales Tax** = Based on Taxes Object and Requestor Postal Code (ETAX Code is for Instant Download)
- **Request Fees** (CIOX Only)
- **Bundling Discount** = Request__c.Bundling_Discount__c
- **Invoice Discount** = Request__c.Total_Invoice_Discount_Amount__c

Total Provider Fees = (Custodian Fee + Provider Fees + Certification Fees + Expedite Fee + Retrieval Fees)

- **Custodian Fee** = Request__c.Custodian_Fee__c
- **Provider Fees** = SUM(Service_Options_Requested__c.Item_Price__c where Fee != 'TBD'). Excluding ChartSwap Fees
- **Certification Fee** = (request.Integration_Certification_Required__c)?CERTIFICATION_FEE:0.00; → CIOX Only
- **Expedite Fee** = (request.Integration_Expedite_Order__c) ? EXPEDITE_FEE: 0.00; → CIOX Only
- **Retrieval Fees** = (Retrieval Network) → (Today: SORs populating to the Other Fee on Request Fulfillment)

Total Payments Received = Request_Fulfillment__c.Total_Partial_Payment_Received__c + Check Amount Received

- **Check Amount Received** = Request_Fulfillment__c.Check_Amount__c

Total Request Fees = Total ChartSwap Fees + Total Provider Fees

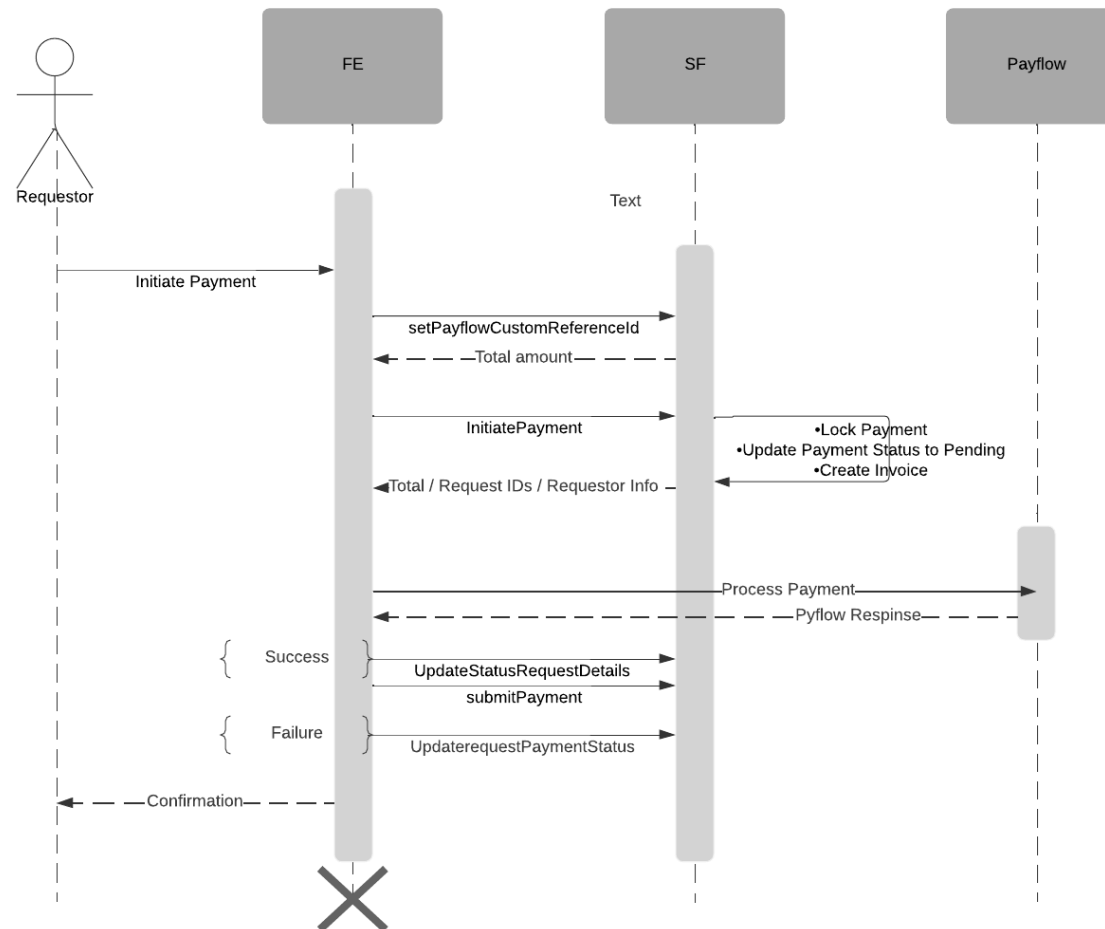

Total Remainder Fees = Total Request Fees - Total Payments Received

Total Invoice = Total Request Fees
